

## Terra Luna Beauty

Terra Luna Beauty is a Michigan based small-batch bath and beauty company. It creates natural, ethical products and donates part of the proceeds to various animal shelters. Terra Luna Beauty needs a website to highlight their products, document their charity work and post periodic updates about the company. The design of the website should be photo heavy, simplistic and sleek to allow users to navigate easily. It will be centered around blogs and other types of social media to create a central hub for anyone looking to learn more about the business.
